**Expenditure Limit:** New Task Order

**Staffing:**

**Priority:** High

**Start Date:** April 1, 2014

**Specific Element(s):** In accordance with the contract statement of work, the contractor shall assist with conducting a removal assessment and removal activities oversight at the Westlake Landfill Site, in Bridgeton, Missouri. Specifically, the contractor shall assist with the following:

- Development of a HASP and QAPP for field activities which complies with the OSHA and local health and safety requirements.
- Secure equipment and laboratory services for air sampling and analysis and other related measurement activities for a long term project as directed by the OSC.
- Provide preliminary assessment of air sampling and analysis results and other related measurement activities as directed by the OSC.
- Set up automated data logging for monitoring systems and systematic sampling routines (including sample shipment as needed) for a long term field project.
- Upon completion of field activities, develop a trip report that summarizes the findings.
- Document costs incurred by the contractor for the response actions.
- Other duties as directed by the On-Scene Coordinator.

**Comments:** Meet with EPA OSC to discuss project and receive documentation to use for draft language. This task order has a short turnaround time.
